## 2. Citations and explanations (Rule 70.7)

Documents cited in the International Search Report:

D1: US 4271462 A D2: US 3381178 A

The cited documents represent the general state of the art. The invention defined in claims 1-24 is not disclosed by any of these documents.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed method for supplying auxiliary power to a high voltage installation and an auxiliary power supply equipment. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-24 is novel and is considered to involve an inventive step. The invention is industrially applicable.
